

MONTANA SEAPLANE PILOTS ASSOCIATION

MEMBERSHIP UPDATE

In an effort to keep our membership records up to date, I am requesting that our valued members fill out the information below. This will not only help your association run more efficiently but will help our members stay in touch with MSPA and all its members.

Our new MSPA web site, www.mtseaplanes.org, is up and running and it looks great. Please have a look at it and let me know what you think. The newsletter will now be posted on the new web site which will help reduce postage costs and for those of you who don't do the computer thing and wish to have the newsletter sent via the good ole U.S. Mail please note that below. Dues and other correspondence can be mailed to: Pat Stene, P.O. Box 700, Polson, MT 59860.

I look forward to promoting seaplane flying and our association along with assisting our members.

Dave Bartholome

President, MSPA

The Montana Seaplane Pilot's Association is a hobby type, recreational, sport flying organization. The newsletter is an amateur production intended only for the edification and entertainment of the association's members. It contains information, suggestions and ideas from other members. If you have questions about ideas or suggestions from the newsletter, you should cross check the information prior to its use.

The social events and fly-ins reported in the newsletter are suggestions only and, because of location, type of airport, surrounding terrain, etc., all events reported may not be suitable for attendance by all club members. Prior to attending an event in the newsletter, each member should review the proposed event site and, based on that and the flying experience of the pilot/member, assess the capability of the pilot to successfully and safely attend the event. The Montana Seaplane Pilots Association assumed no responsibility or liability for the contents of the newsletter or for the damages resulting from attendance at events reported in the newsletter.
